Title Insert Manifestation and Author Blocks in R Scripts

Version 0.1.0

Description Provides an RStudio addin and function to insert a customizable ``manifestation block" and author metadata into R scripts. The block includes intention-setting messages, script name, purpose, author information, creation/modification dates, citation instructions, and notes. User defaults can be preloaded from a configuration file to minimize repetition.

insert_manifestation *Insert Manifestation Header (smart, with config + prompt)*

Description

Insert Manifestation Header (smart, with config + prompt)

Usage

```
insert_manifestation(  
  script_name = NULL,  
  purpose = NULL,  
  author = NULL,  
  email = NULL,  
  citation = NULL,  
  notes = NULL,  
  save_profile = FALSE  
)
```

Arguments

script_name	Optional name of the script
purpose	Script purpose
author	Author name
email	Contact email
citation	Preferred citation
notes	Additional notes
save_profile	Logical. If TRUE, saves the inputs to ~/.manifest_profile.R
